

OLIVIA OAK

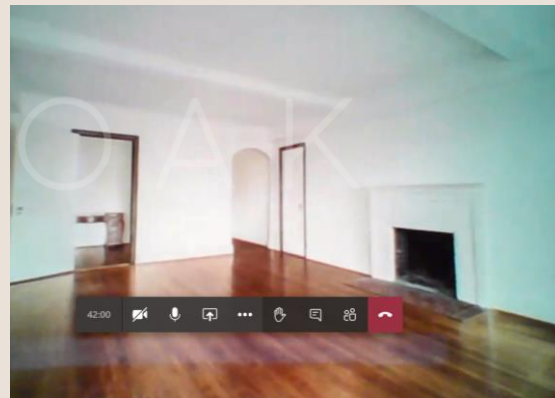

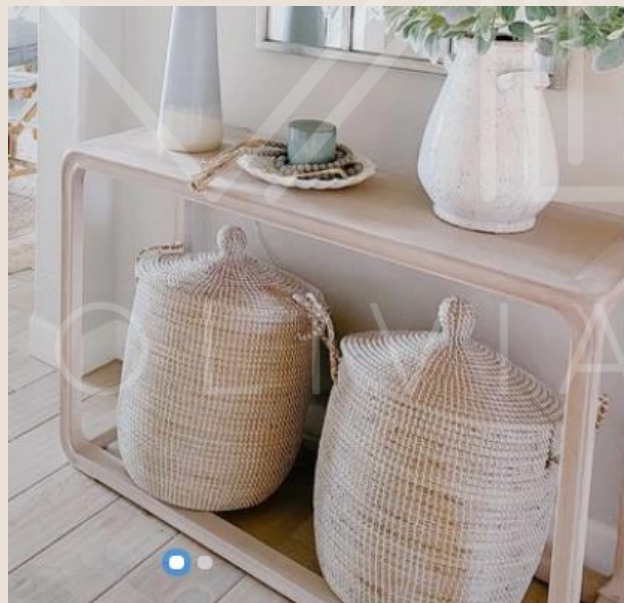

CUSTOM  
ENTRY  
CONSOLE  
*for*  
APRIL

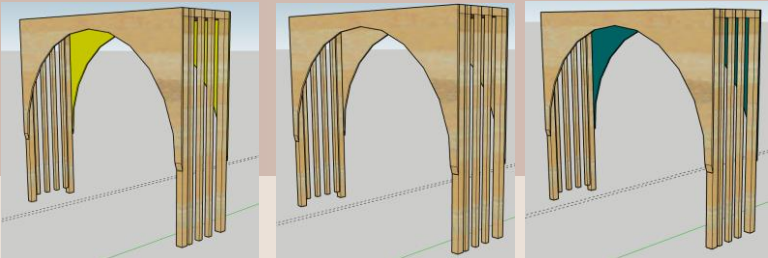

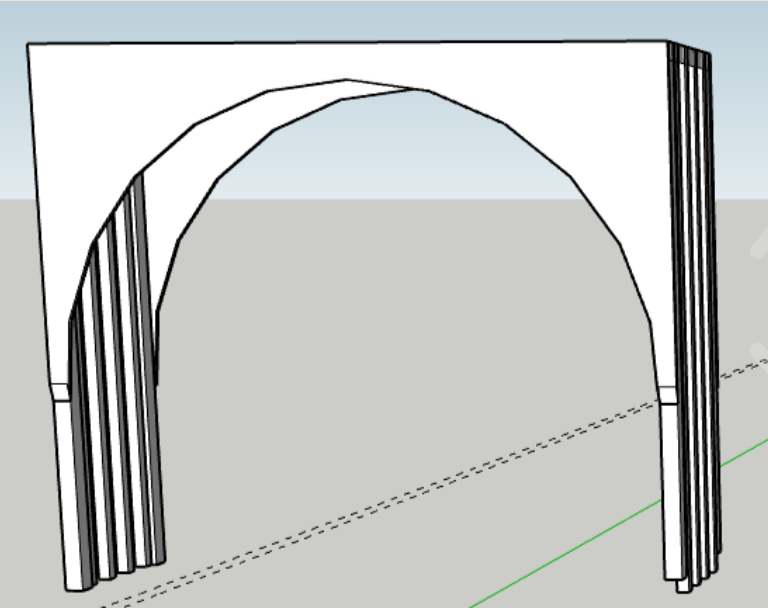

# MOOD BOARD

WARM, ARCHITECTURAL  
FRESH, MOD, CLEAN

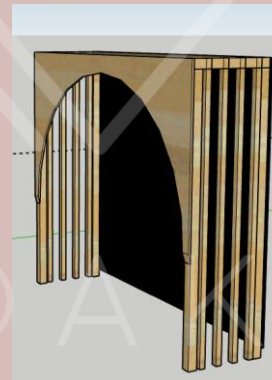

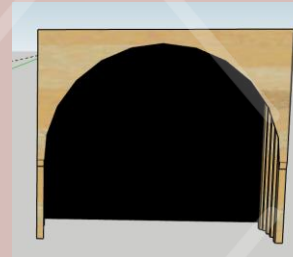

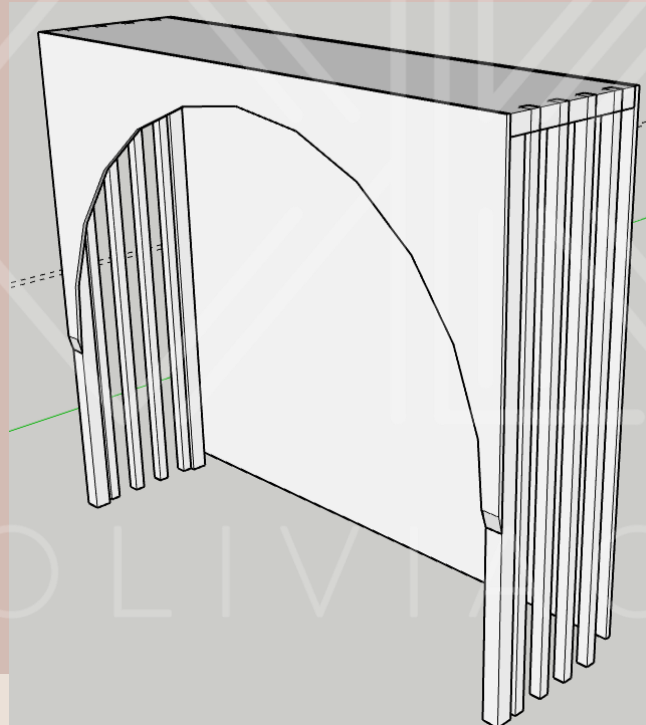

# DESIGN: GRAND ARCH

## 1. OPEN ARCH

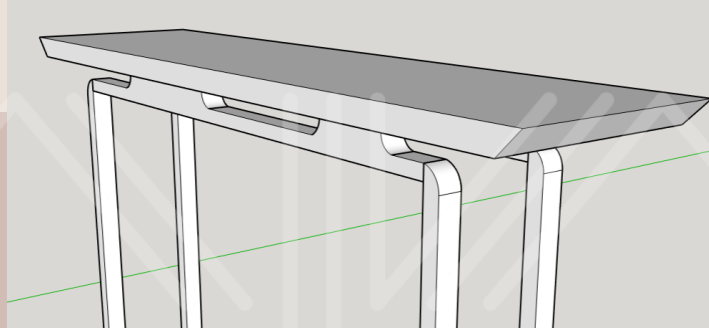

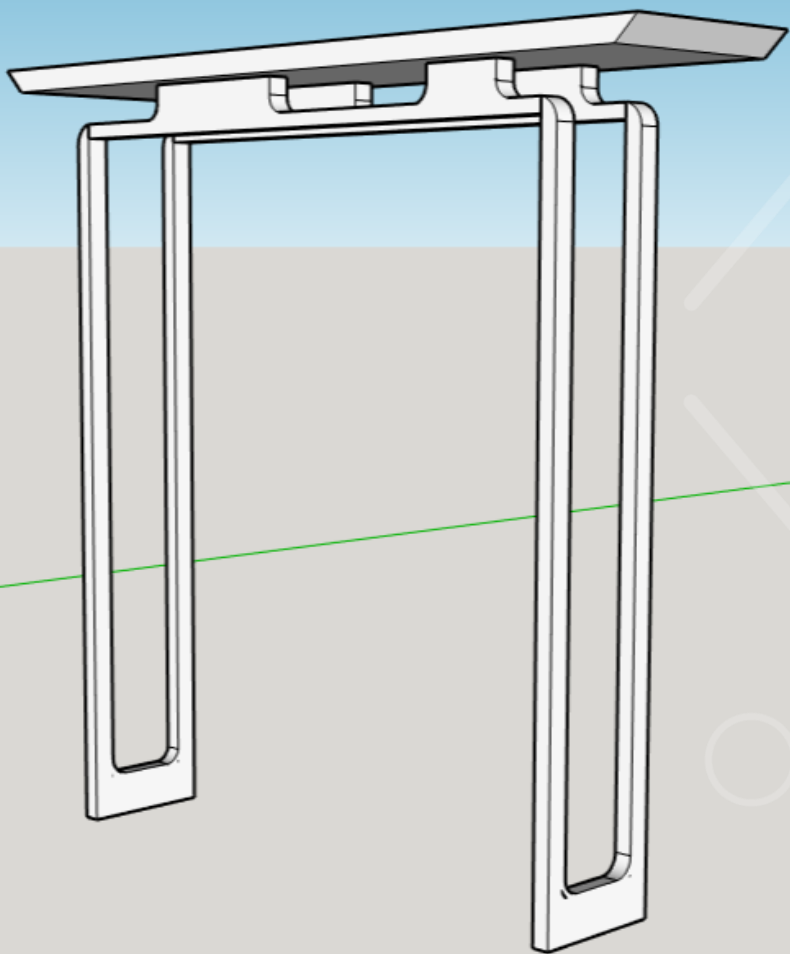

## 2. COVERED ARCH

## FEATURES

- Inspired by the beautiful arch leading into your living space – this console mimics the grand shape
- Side panels are vertical slats to make the piece feel airy and allow you to see through the table
- Variations
  - Painted undersides
  - Enclosed arch for a more dramatic look

# DESIGN: 'MA' CURVED

More Curved Detail

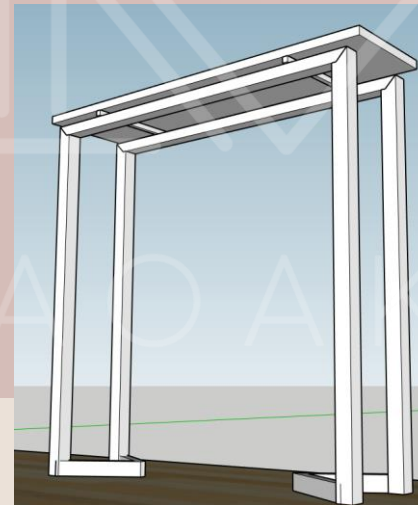

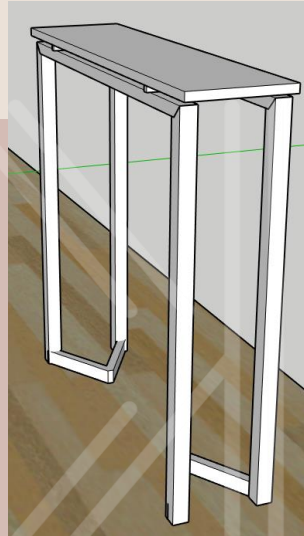

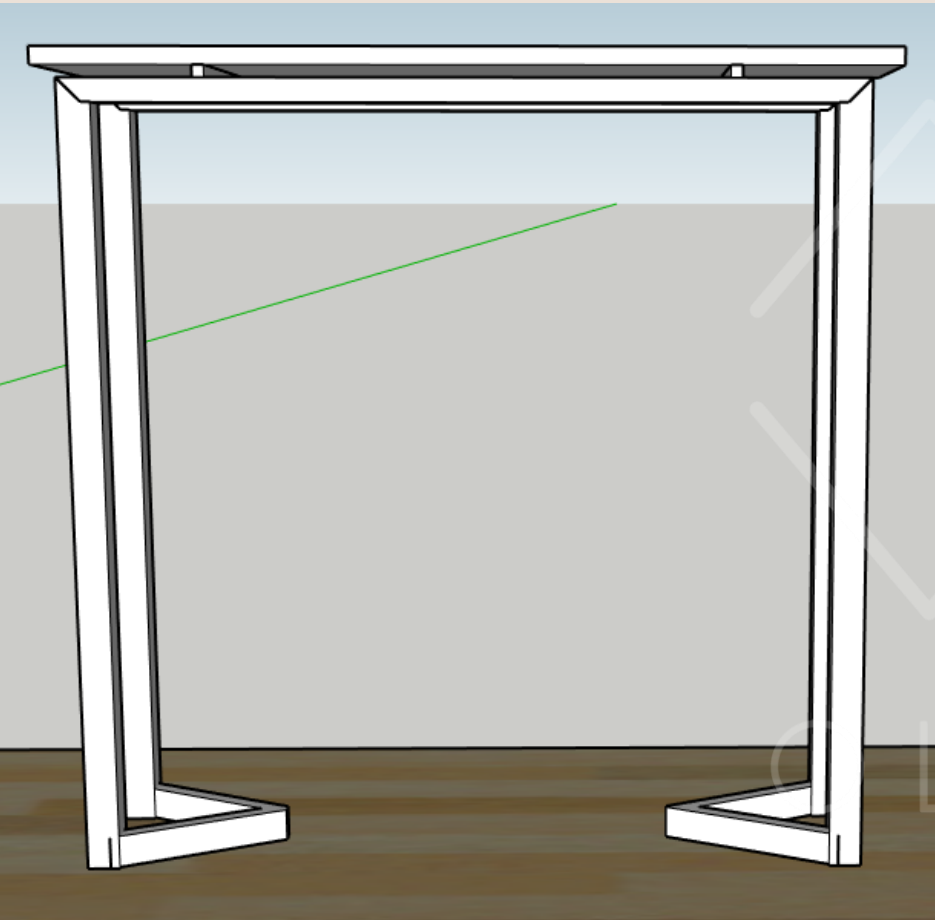

## FEATURES

- Your inspiration piece reminded me of classic Japanese furniture design, The idea of MA or negative space is central to that design - its a celebration of not things but the space between them
- The base is an open frame crafted to support a 'floating' tabletop
- Curved accents on the outside and inner corners create 'waterfall' flow to the piece.
- The tabletop is designed with a classic Japanese underside bevel that strategically contrasts the curves the base

**FUN FACT:** Japan is often regarded as the country that produces most intricate and fine furniture hand craftsmanship.

# DESIGN: 'MA' ANGLED

## FEATURES

- Your inspiration piece reminded me of classic Japanese furniture design, The idea of MA or negative space is central to that design as is a celebration on not things but the space between them
- The base is an open frame crafted to support a 'floating' tabletop
- The silhouette is accented with angular corners and double pyramid feet
- The tabletop is light and slender only 5/8" thick to amplify airiness and to not distract from the base design

FUN FACT: Japan often regarded as the country that produces most intricate and fine furniture hand craftsmanship.

# WOOD OPTIONS

## NEW AMERICAN HARDWOODS

### POPLAR

Ivory in tone with green, brown & and even purple streaks running through the wood which creates a dynamic finished look.

Its widely available in the US which makes it the most cost-efficient hardwood.

### MAPLE

Has a uniform warm light color with a clear grain – used most often furniture making

### WHITE OAK

The “taupe-its” among light woods. Color can range from deep brown/ gray to light beige

Incredibly solid wood

### CHERRY

Beautiful warm Red tone. Uniform color pattern

### AMERICAN WALNUT

Rich deep brown, dynamic grain, luxury wood
